DETAILED ACTION

Response to Amendment

1. The amendment filed on 03/14/05 has been entered and made of record. Claims 1-6,8-9,21-32 are pending.

Allowable Subject Matter

2. Claims 1-6,8-9,29-30 are allowed.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 21-28,31-32 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Data structures not claimed as "embodied" or "stored on" computer-readable media are descriptive material per se and are not statutory because they are not capable of causing functional change in the computer. Also, there is no functional relationship within the body of the claim that "provides information corresponding to a document". The preamble does not provide statutory basis. See *Warmerdam*, 33F.3d at 1361, 31 USPQ2d at 1760. MPEP 2106.
